Nursing Informatics Boot Camp

FOLLOWS THE 2022 TEST CONTENT OUTLINE OF THE ANCC.

This course goes beyond the ANCC outline to discuss current trends and issues.

Taught by informatics professionals with recent healthcare informatics experience.

COURSE DESCRIPTION

This intensive two day course focuses on current informatics trends and issues in health. It includes content for nurses interested in becoming Certified Informatics Nurses. Other clinical professionals working in informatics may wish to take the course to become exposed to the course topics.

This program is approved for up to 14.5 continuing education (CE) hours for use in fulfilling the continuing education requirements of the Certified Professional in Healthcare Information & Management Systems (CPHIMS) and the Certified Associate in Healthcare Information & Management Systems (CAHIMS).

COURSE OBJECTIVES

1. Discuss the scope and standards of nursing informatics practice
2. Describe professional practice, trends and issues within the informatics nurse role
3. Explore management and leadership issues affecting informatics in healthcare settings
4. Identify key concepts in informatics, information technology, information management, knowledge generation and data security
5. Consider human factors in relation to information technology systems
6. Describe models and theories associated with informatics
7. Delineate steps of the system life cycle as it applies to information technology in the health setting

TOPICS

- ✓ Foundations of Practice
- ✓ System Design Lifecycle
- ✓ Data Management and Healthcare Technology
- ✓ Current Issues
- ✓ Case Studies
